2018-July-12: In an article in Science, multi-wavelength followup (including VERITAS data) of an IceCube neutrino event, IC20170922, is presented. There's an SAO press release [here](https://www.astro.wisc.edu/~ic/press_releases/), and the Science paper and a VERITAS paper on further observations of TXS 0506+564 are in our "Results" page [here](https://www.astro.wisc.edu/~ic/results/).
